PROFILE

Shopify Developer and front-end engineer with 5+ years building ecommerce storefronts, custom Liquid themes, and automation workflows. Sole developer across a multi-brand DTC portfolio, owning everything from theme architecture to Git/CI-CD pipelines. Hands-on with the Shopify Admin GraphQL API, third-party integrations, and the Shopify AI Toolkit (Dev MCP). Comfortable onboarding developers, training non-technical teammates, and delivering independently in remote, fast-moving environments.

TECHNICAL SKILLS

Front-End: HTML5, CSS3 / SCSS, JavaScript (ES6+), Tailwind CSS, responsive UI, Core Web Vitals / performance

Shopify: Liquid, Online Store 2.0, Checkout Extensibility, Metafields & Metaobjects, Shopify Plus, Admin GraphQL API, Shopify AI Toolkit (Dev MCP)

Tooling & Integrations: Git / GitHub, CI/CD, Zapier, Pipedrive CRM, marketing & analytics tracking (Meta, TikTok, Northbeam, AppLovin), Fulfil.io ERP

Also: Python / Django (foundation)

PROFESSIONAL EXPERIENCE

Curv Group — Multi-brand DTC Portfolio

Buenos Aires, Argentina (remote)

Shopify Developer / Web Developer

September 2023 – present

- Sole developer across six live Shopify storefronts — developed and shipped a major flagship-brand redesign, delivering a complete PDP overhaul and a reusable component library that streamlined subsequent page builds.
- Engineered quantity-tier (volume) pricing on storefronts whose plan lacked native support — using a variant-based front-end technique to deliver tiered pricing with no third-party app required.
- Built internal tooling on the Shopify Admin GraphQL API: a product-data export feeding B2B content workflows and a store-health dashboard flagging inventory and bundle-status issues; used the Shopify AI Toolkit (Dev MCP) to write and validate queries against live schemas.
- Built and maintain a Zapier pipeline syncing custom storefronts to a Pipedrive CRM, and manage marketing & analytics tracking (Meta, TikTok, Northbeam, AppLovin) end to end.
- Owned Git/CI-CD pipelines in a multi-developer environment — branch strategy, freelancer theme merges, and production deployments, maintaining stability throughout.
- Onboarded three freelancers onto the codebase and trained a content manager to work independently with custom Sections, reducing development bottlenecks for routine updates.

Onkron AV Solutions

St. Petersburg, Russia (remote)

Shopify Store Manager

May 2020 – April 2023

- Maintained a Shopify storefront day to day — content updates, product catalog, merchandising, and campaign setup through the theme customizer.
- Managed third-party apps and store configuration, handling HTML/CSS edits and cross-browser checks.

Self-employed Translator (ENG ↔ RUS)

Remote — USA, Argentina, Brazil, Russia

Translator / Digital Nomad

Jan 2016 – May 2020

- Translated banking, economic, and social-media marketing content across languages while working remotely.

Russian Embassy in Turkmenistan

Ashgabat, Turkmenistan

Consular Officer

Dec 2011 – Dec 2015

- Managed consular casework and resettlement programs in a detail-critical government role.
